Workshop by Mr.Govindaraj

An interactive and impactful workshop to introduce effective teaching techniques was conducted by an experienced and senior academician Mr.Govindaraj. He talked about various teaching techniques to make the teaching learning process more interesting and effective. She threw spotlight on the importance of child friendly techniques. Queries and challenges faced by the teachers were addressed and novel ideas for teaching were shared. Teachers were inspired to incorporate various language games to make the class more interactive. The workshop was concluded by suggesting the teachers to utilize good techniques for planning, implementation and evaluation. The workshop was reflective and goal oriented.

Workshop by Ms. Ruchi Gupta

An Interactive session was held by the Educomp resource person Ms.Ruchi Gupta. The workshop was a refresher to the one that was previously conducted in 2015. The workshop stressed on the significance of using the visual aids to explain abstract concepts.. The Smart Boards were described to be a scientific concept on which the teaching methodology is based. '5 E Concepts' i.e. Engage, Explore, Explain, Extend and Evaluate could be followed and linked to the subject that is taught in the classroom. The Stylus-Digital Pen was introduced to the teachers for easy mobility while conducting a particular class. The Teachers were shown how to use the content available in the Lesson Plan Modules to the optimum level. They were trained to manage the folders, edit them, switch view, add resources, use animations etc. The workshop was indeed useful for the faculty members.

Workshop by Ms.Anuradha Naicker and Ms.Hilda Paul

An interactive, innovative and impactful workshop was conducted by Ms.Anuradha Naicker and Ms.Hilda Paul to initiate a new paradigm in the teaching learning process. In a very subtle and creative manner they enabled the teachers to recognise various myriad aspects of multiple intelligence like numeric, linguistic and creative etc. The workshop aimed to facilitate teachers towards their own growth as an individual as well as a teacher. They emphasize on maintaining positive mindset and motivational level to equip teachers to make a bigger impact in the classroom. Apart from this ample teaching techniques to involve students were discussed at length. Versatile strategies and teaching approaches were discussed. Teachers had fun playing various games.

Workshop by Dr Vinay Khatri

She urged teachers to maintain a positive attitude as attitude is a little thing that makes a big difference. She also defined PAIN as positive attitude in negative situation. She also suggested that the onus to build up a positive relationship with the students is entirely upon a teacher and quoted that if you solve relationship problem you solve misbehaviour problem. She insisted on recognising physical, social, emotional, visual, intellectual and social needs of the kids. She emphasised on carefully planning the learning sessions and to use variety of instructional techniques and materials for the purpose and also to give daily life relevant examples to provide with the better clarity of concepts to children. Teachers also had fun doing activity based learning.

Classroom Management and Effective PTM Techniques

The workshop was an interactive one. It enlightens the teachers about the components of a successful, well-managed classroom.

1. Instructed teachers to be respectful about the individuality of the students and give a chance to their passion. Students should be given liberty of choice.
2. Give tangible awards to celebrate hard work of students- It can be a good example of positive reinforcement.
3. Form Rapport with kids- A level of trust needs to be built between teacher and students. When a student trusts a teacher he/she makes an effort to follow their words so become a first contact person after family.
4. Various innovative strategies which can be applied in the real classroom situation were shared among teachers to make children as your friends so that they can develop the necessary trust in you.
5. Ask questions and listen- Collect information in a written form, make notes for the same, and create a questionnaire to extract maximum information about family.
