## 2.4.9 Plan of teacher engagement in school internship

Teacher Education programme requires a 16-weeks school internship to complete the prerequisites. To be a successful student teacher, internees must perform some administrative tasks in addition to their teaching practice. The internees actively participate in curricular, co-curricular and administrative duties allotted to them with utmost interest and enthusiasm. The internees are regularly monitored and guided by the teacher educators to make essential modifications in their teaching strategies and clarify their doubts over their duties during the internship programme.

The internees write lesson plans and with suitable teaching learning materials that make the teaching environment more active and livelier. They learn to identify students with specific learning problems and provide interventions to improve their learning. Internees provide mentoring sessions to students. Internees prepare blue print, achievement test and scoring key to test the students' comprehension. The internees are instructed to adhere to the rules and regulation of the internship schools during the internship period. Student teachers provide significant contribution towards co-curricular activities such as Morning Assembly, Literary Competitions as part of Literary Club, Science Club Activities, Quiz, Debates, Days of National and International significance, Awareness programmes, etc., that are conducted in the practice schools with the help and support of their mentors. The internees submit a report to the college on the activities performed by them during internship.
