

Quality Educational Resources to Persuade the Worldwide Education

Mrs.P.Janani, M.Ed., Scholar, Our Lady College of Education, Maduravoyal Chennai.
Mrs.UshaNandhini.R.M.Ed., Scholar,Our Lady College of Education, Chennai.

Introduction

Educational Resources: Any tool which supports or makes greater impact in the field of education and meet the global needs of worldwide education through the resources such as human resources (teachers), objects either be Concrete or Abstract Models. Model such as real life environment i.e., Concrete objects or Abstract objects such as audio-visual aids are said to be an Educational Resources. They additionally encompass different imperative materials used in the college to make educating very easy and learning greater meaningful and understandable to the learners. Education resources covers all these materials human and non-human, drawn or photographed, constructed manually or electronically operated, books and all varieties of related substances used in teaching and learning process.

Categories of Resources Management:

a. Physical Resources:

The physical resource consists of structures, the machines, raw materials, vehicles, and different tools, which can facilitate organizations activities and processes. The bodily resources may also now not be the equal in all organization. In academic system, the physical sources would consist of the classrooms/lecture rooms, workforce offices, vehicles, fitness centers, library, laboratory, and so on, which at once or in a roundabout way contribute to the success of goals.

b. Human Resources:

Human resource administration in education is a set of practices and strategies of integrating and maintaining the educating group of workers in the school so that the college can attain their reason and as well as meet the dreams for which they were established. It is the motivation and co-ordination of the activities and effort of the instructors in school in order to obtain maximum output from them and consequently gain the goals of education optimally.

c. Financial Resources:

Financial resources are the funds required for the smooth operations of a college and are viewed as the life-wire of any system. It is certainly a more integral side with which other elements of administrations are created, maintained and sustained. In faculty administration,
