Segregation of waste

Student teachers were able to comprehend the significance of segregating waste to create an eco-friendly campus. To inculcate the habit of Solid waste management, the college has provided stainless steel trash bins since it avoids the usage of plastics. The bins are marked with Bio-Degradable (Green Sticker) and Non-Bio-Degradable waste (Red Sticker). The waste is disposed accordingly as the student teachers are aware of the procedure to put the waste in the right place.

E-waste management

The college has a regular mechanism to repair and reuse electronic items like printers, scanners, and projectors to ensure the optimum utilization of the products purchased and minimize wastage. Gadgets such as laptops, desktops, and CPUs are regularly serviced to optimize performance and minimize electrical consumption. The worn-out electrical and electronic items are sold to the vendors to maintain a clean campus.
