Special Lecture on

'Unity in diversity is better than, unity in similarities''

05.07.2022

A special lecture on 'Unity in diversity is better than, unity in similarities' was organized on 05.07.2022. Dr. Kanimozhi Principal, Sathyasai College of Education, Avadi served as the resource person. He started her lecture by meaning of "Unity in diversity". It means the existence of integrity despite the various inequalities. India is a better example for this concept of "Unity in diversity". We can see here *very* clearly that on the one side of India, namely, different religions, community, caste, language, culture, life style, way of wearing apparel, trust in God, worship with samarasata under one roof People of text-like manner etc. live together.

He also explained that the people living in India are a mother's child whom we call the mother of India. India is a famous and big country in the world where different religions like Hindu, Muslim, Buddhist, Sikh, Jain, Christian and Parsi live together but all trust one principle of religion and order. People here are terrified of God by nature and rely on the purification of soul, reincarnation, salvation, heaven and hell. Without harming people of any religion, people celebrate Holi, Diwali, Id, Christmas, Good Friday, Mahavir Jayanti, Buddha Jayanti etc in a very peaceful manner.

Special Lecture on 'Elements of Effective Teaching'

22.12.2022

A special lecture on 'Elements of Effective Teaching' was organized on 22.12.2022. Dr. Pandiavadivu, Professor, Tamilnadu Open University, Chennai. The special talk was arranged under the faculty exchange programme as per the MoU signed with, Tamilnadu Open University Chennai. The speaker started his lecture by congratulating the students for choosing the teaching career. He gave an excellent address on who an effective teachers are and what effective teaching is. He explained the essential elements of effective teaching by citing relevant life examples. He highlighted the slogan 'Teach, Preach & Reach' to become an effective teacher. He gave the outline of the elements of effective teaching as: Planning, Teaching, Classroom Management and Interpersonal relationship. He advised the students to teach with passion, invest and devote time for students and help in their holistic development, approach the students with respect, make the students feel valued as individuals, accept the imperfections of the students as they are and very importantly empathize with them to develop themselves professional and become effective teachers. The students attended the lecture with full involvement and interaction and gave positive feedback about the programme. Thus the lecture was effective to help the students think about the ways to be adopted to become effective teachers in future.
