Organizing Learning (Lesson Plan)

The preparation of the lesson plans is of foremost importance in the internship process. The inputs regarding the General Instructional Objectives, Specific Instructional Objectives, Action Verbs, Concept of Microteaching and techniques of Evaluation are oriented to the students in the beginning of the second semester. The students were given practice in Microteaching skills through a three-day Workshop for various Optional subjects with a prior demonstration by the teacher educators. The general orientation regarding Bloom's Taxonomy and format of a lesson plan is given during second semester every year. The pedagogy teacher educators trained the students in writing and mastering the formats before the internship session. Hence the student teachers were prepared in a systematic manner in lesson Plan writing before internship in Schools.

Developing Teaching Competencies

Demonstration

Demonstration and Peer teaching were organized as per the schedule every academic year before the internship program to enable the student teachers practice teaching effectively. Demonstration session on teaching skills are organized every year by teachers from KK Nirmala Girls Higher Secondary School(Model School).The micro teaching skills were explained and demonstrated by staff members as a team and the students were exposed to teaching by observing the teachers teach in the real time classrooms. The same skills were practiced by the student teachers in small groups under the effective supervision and guidance of staff members. Demonstration and practice teaching sessions on various micro teaching skills were undergone to build the confidence and communicative abilities of Prospective teachers. A two-day peer teaching was organized to prepare the student teachers to be more efficient and committed in their teaching.

Model Making Competition

The model making competition organized by the department of Physical Science involved conceptual as well as theoretical knowledge to make learning and retention stronger. The event is organized every academic year to enhance the student's interest towards the subject and to make academics fun and interesting. The students were divided into groups and each group displayed a working and a non-working model. The models were evaluated by the externals from other colleges of education based on the creativity, conceptual clarity, working condition/materials used, presentation and practical applicability. The best models were chosen and prizes were distributed. The purpose of the competition was to encourage innovative ideas and enhance thinking skills of the students.
