REMEDIAL LEARNING ENGAGEMENT IN THE YEAR 2022 - 2023

Students who need learning assistance receive remedial instruction. We understand that every student is unique and different with their own way of learning. It is our responsibility as teachers to provide an environment that will foster maximum learning. We believe that all students can achieve mastery of learning and the rate at which it occurs may differ. Teachers spend extra time with the students who take a longer time for mastery. Remedial learning classes in the name of "Catch up hours" were introduced this year. After the first internal exams, students self-reflected on their performance and opted for "Catch up Hours". Certain hours were earmarked as catch up hours in the time table. However, remedial support was not limited to these hours. Teachers sometimes provided remedial support in an online mode after the regular classes.

The following were the intervention strategies followed:

- Breaking the concept into small parts
- Re teaching the difficult concepts
- Using mind maps, info graphics to teach the topics
- Providing regular feedback on performance
- Providing tips to harness their potentials
- Increasing metacognitive awareness

The following students appeared for the remedial learning programme in the year 2022- 2023:

NAME LIST FOR I YEAR B.ED STUDENTS

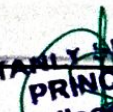

| S. No | Name | Major |
|-------|---------------------------|-----------|
| 1. | ALAGU SUNDARI V | Maths |

REMEDIAL LEARNING ENGAGEMENT IN THE YEAR 2022- 2023

Students who need learning assistance receive remedial instruction. They are identified based on their performance in the continuous assessment components of the institution such as class tests, seminars and assignments, learning tasks, quizzes, discussions and attendance. Faculty members who handle each course regularly review the academic progress of the students to increase their academic performance. Remedial classes are arranged for students who are in need by the concerned teacher. Such classes have a positive impact on the performance of the students. Since the academic performance gets increased the self-confidence of the students too gets increased.

Identifying Students who Need Assistance

- The entry behavior test helps in identifying students who need extra attention.
- The class tests and internal exam marks help to differentiate the learning needs of the students.
- Remedial classes are held for students who opt for extra inputs in a particular course.
- Attendance of the students

Individual teachers who handle different courses spend extra time with the students either in the morning or evening that is before and after regular college working hours or even on holidays to help the students understand the concepts. Learning materials will be customized as per the need of the students.

Available Intervention Practices

- Breaking the concept into small parts
- Providing regular feedback on performance
- Using mind maps, info graphics to teach the topic
- Engage students in routine assessment
- Re teaching the difficult concepts
- Motivation in learning
